**Subject:** EXTERNAL: Request statistical review of subsets of Responses to comments

I would like to request statistical review of the statistics related parts of the attached document, which are responses to EPA previous comments on the Nov 2018 version of the Parcel G Work Plan, which is at this website:  
[https://www.bracpmo.navy.mil/brac\\_bases/california/former\\_shipyard\\_hunters\\_point/reference\\_library.html](https://www.bracpmo.navy.mil/brac_bases/california/former_shipyard_hunters_point/reference_library.html)

Here are the statistics related items of the attachment:

p. 6, # 11  
p. 7-8, #7, 8, 9

The Navy has not provided revised text. They want the regulators' reactions to the RTCs 1<sup>st</sup>. Then they will send the revised text 10 days later. We told them we will not approve until we review the revised text.

Let me know if you want me to resend to you the previous comments we already submitted to the Navy, which they are responding to. But I think it's mostly in this document itself.

Can you review this week? I'm sorry for the short notice. I just got it yesterday myself.

Lily Lee
